### What is a Letter?

What is a letter? let affection tell,  
A tongue that speaks for them that absent dwell,  
A silent language uttered to the eye,  
Which ev'ry distance would in vain deny;  
A link to bind what circumstances part,  
A nerve of feeling stretched from heart to heart,  
Formed to convey like no electric chain,  
The mystic flash--the lightning of the brain,  
And thrill at once through the remotest link  
The throbs of passion by a drop of ink.

A TENSILESTAY.

### A Curious Acoustic.

We find the following curious piece of poetry in a late number of the Presbyterian Magazine. The initial capital letters spell "My boat is in the harbor of Christ," and the words in small capitals, read from top to bottom, with those in *italics*, read from bottom to top, make the Lord's Prayer:

Make known the Gospel truths, our Father

King,

Yield us thy grace, dear Father, from above;

Bless us with hearts when feeling can sing  
Our life thou art for ever, God of love.

Assuage our griefs in love for Christ, we pray,  
Since the bright Prince of heaven and glory died.

Took all our shame, and hallowed the display,  
In first being man, and then being crucified.

Stupendous God! thy grace and power make known

In Jesus' name, let all the world rejoice,  
New laws in thy heavenly Kingdom write;  
That blessed Kingdom, for thy saints the crown,  
How vile to come to thee, is all our cry,  
Enemies to thyself, and all that's thine;  
Graceless our will our lives for vanity,  
Loathing the truths, we're evil in design.  
Oh God, thy will will be done, from earth to Heaven,

Reclining on the Gospel, let us live,  
In earth, from sins deliver us and forgive,  
Oh, as thyself, but teach us to forgive,  
Unless thy power temptation doth destroy  
Sins are our life into the depths of woe;  
Carnal in mind, we've not a glimpse of joy;  
Raised against HEAVEN, in us no hope can flow.  
O give us grace and lead us on thy way;  
Shine on us with thy love, and give us peace;  
Soft and true sin, which rise against us, slay;  
Oh! grant each evil our trespasses may cease;  
Forgive our evil deeds that oft we do,  
Convince us daily of our sin to shame,  
Help us with heavenly bread; forgive us too  
Recurrent lusts, and we adore thy name.

In thy forgiving love, we as sinners can die,  
Since, for us and our trespasses so high,  
Thy Son, our Saviour, bled on Calvary.

### MUSIC--MAMMOTH CAVE.

On the 10th of last month, "LUDWIG'S SAX-HORN BAND" of this place, numbering nine performers, visited the great subterranean wonder of the world the Mammoth Cave of Kentucky.

This, perhaps, the first Brass Band that ever explored the Cave, as we were informed by one of the guides who has been in the employ of the proprietors some twenty odd years, that this is the first Band of the kind he has any recollection of seeing enter the Cave since his connection with it.

On our first entrance we took what is generally known as the "short route," and although I do not propose to attempt a description of this great curiosity, with your permission, I will mention some of the principal objects for the benefit of those who have not visited the Cave, or who have not read a description of it. I do not believe that any man can write such a description of the Mammoth Cave, as will convey to the mind of the reader, any definite idea of its real grandeur.

Quite a number of ladies, prompted by a desire to hear the music, as well as to witness the beauties of the Cave, followed us in.

The moment you get in front of the mouth of the Cave the atmosphere is so remarkably cool, that you feel chilly for a short time. This feeling, however, leaves you to a great extent as you enter, which is done by descending an inclined plane some 40 or 50 feet, when you reach a smooth surface. The mouth of the Cave is probably some 40 feet in height and the same in width--though we made no actual measurement.

After proceeding several hundred yards you reach what are known as the "first salt-pore vents"--the Cave presenting up to that point the appearance of a public dirt road, with an arch of solid rock overhead. Passing from this, you enter the "Grand Rotunda"--a hall some 60 feet in height and otherwise proportioned--capable of holding five or six hundred persons--the walls of which when seen by an extra light in addition to the small lamps carried by the visitors, present a most magnificent appearance.

You then meet with nothing worthy of attention until you reach the "Chapel," a large hall that has been occupied by the Methodists many years ago, as a place of worship. Quite a large audience could be seated in this place. There is a pulpit and gallery, which were doubtless used by the denomination referred to.

Between these places of special interest, the Cave presents very much the same appearance as it does between the "vents" and the mouth. You then pass the "second salt-pore vents" made by miners at an early day. These vents look like those usually seen about country taverns. The ceiling of the Cave then presents for some distance a rough, uneven appearance, and this part is called the "Gothic Avenue." A high rock jutting out from the wall is called the "Lover's Leap." Passing through a continuation of the Gothic Avenue, you come to the "Post Oak Pillar"--a solid rock about 12 feet high, and 2 feet in diameter--resembling

in appearance an oak post. You then reach the "Gothic Chapel." This hall is proportioned very much like the others mentioned, and as it seemed a suitable place for sacred music, we performed Dr. Lowell Mason's Missionary Hymn, and "Fading, still fading." The effect of the music upon the Ladies, (the most of whom were from Louisville), was such, that they gave us a hearty round of applause. Indeed, the atmosphere in the Cave is so entirely different from that outside, that performing on Brass instruments is the easiest thing imaginable. The echo is not so great as to destroy the effect of the music, but still sufficiently good to render it delightful. The next object of interest is a "black-smith shop." A rock resembling an anvil in shape and appearance, is elevated at the proper height for use, and a quantity of some black formation, has the appearance of cinders--the whole making a very fair (?) representation of a black-smith shop. You then pass huge rocks, very regularly formed, resembling fortifications--which although they have the exact appearance of breast-works--have been improperly called "Napoleon's fortifications." The precise time they were erected by the great Emperor was not given by the guide!

This is probably two miles from the entrance. You then come to the "Old Arm Chair"--in which I suppose every visitor to the Cave has taken a seat. The guide failed to inform us whether it was the same one the poet loved--but we guess it was not. It is a solid rock, detached from the sides of the Cave--and resembling a large arm chair.

The next object of curiosity after passing some distance in a solid rock, elevated near the center of the Cave, that in shape, size and color, looks like an Elephant's head, with the trunk broken off.

A short distance from this is "Lake Parity"--a small body of water, about 20 feet in length and 12 in width, two or three feet deep, and so clear that small pebbles can be distinctly seen at the bottom. The water is exceedingly pure, and sufficiently cold for drinking purposes.

You then come to the "Giant's Coffin"--a rock said to be 60 feet in length, and in every respect proportioned as a common wooden coffin. The top extends a little over the sides, and the shape is such as to give it every appearance of a coffin. This is certainly one of the most wonderful curiosities to be seen in the Cave. There is nothing about it showing any marks of the hammer or any instrument, whatever. Immediately over this coffin, is a figure in the rock representing an anti-enter.

After passing a very deep hole known as the "side-saddle pit," you reach "Minerva's dome." There is nothing very remarkable about this "Grotto's dome" is seen through a small window in the rock, and extends below to all appearances forty or fifty feet and about the same distance above. The appearance of the walls of this dome, when a light is thrown down, is of a bright grayish color--very brilliant, and magnificent beyond description. You next pass over a small wooden bridge, near which is the "Bottomless pit." This is a very gloomy-looking affair, and for four visitors may occasionally make a descent into its dreary caverns, against their inclinations, small iron banisters have been erected to prevent accidents. A lighted paper thrown into this pit, shows it to be of a considerable depth; but also shows its misnomer by revealing a bottom.

You next visit the "Star Chamber"--a hall about 60 feet high and proportioned accordingly. The walls present the appearance of an arch within a short distance of the top, when they form a flat surface. This flat surface is dark, whilst the walls are of a gray appearance, resembling granite. Our lights here are extinguished--except one--which is used to reveal in the black surface, a vast number of little stars, all appearing as natural as the stars of heaven. The imagination, doubtless, has much to do with the appearance of these stars--yet strange to say, they look natural.

The imagination that the most of our company formed of the stars was, that small rocks had been thrown against the black surface, knocking off a vast number of small particles, leaving the white rock underneath exposed, which represented the stars.

The guide then concealed all the lights, leaving us in total darkness. Approaching us from a huge pile of rocks, with the lamps gradually as he proceeded, we had a representation of sunrise. Altogether this Chamber is one of the greatest curiosities of the Cave. The Band performed the national airs, together with several quick steps, in this Hall, and the effect was very fine.

Returning towards the mouth, we passed a huge rock, representing the steamship "Great Western." This rock is on an elevated position, and in size and shape, bears a great resemblance to a steamship.

We came out of the Cave at five in the afternoon; having completed the short route, making in going and returning 6 miles--in 4 hours.

On going out of the Cave, when you get out of the direct line of the mouth, a heavy, dull, warm atmosphere strikes you which is very oppressive. Ladies frequently faint and have to be carried to the hotel, which is about 300 yards distant. By going out gradually, however, you are enabled to stand it better, and experience very little inconvenience from the atmosphere.

The long route which is usually made on the second day, is nine miles--making a distance of 18 miles to be walked in one day. This trip is made by a hard and delicate ladies, without any danger or fatigue.

On this route, which is called the "Main Cave," and which is different from the "short route"--you proceed some distance before you discover anything worthy of special notice.

The "Valley of humility" is a portion of the Cave so called, that a person has to stoop slightly in passing, and which is well calculated to humble even the most haughty. The valley, however, only extends about one hundred yards, but presents a most magnificent appearance.

The "Scotchman's trap" is a pile of rocks that seem to have fallen from some high point and lodged in such a manner as to be upheld by a very small point of one of their number. Under these rocks you have to pass, and as there seem to be some danger of your being caught in the trap, you will be very apt to hasten from under without waiting to be told.

After passing through what is called the lower branch, you enter "Fat man's misery," which is a narrow, winding place, about one hundred yards in length, through which you have to make your way. Small men get through without much difficulty, but large ones are said to be greatly rejoiced when they reach what is called "Great Relief."

There is a rock not far distant from this, on an elevated position, about 10 or 15 feet in diameter, resembling a Crown. The small points rising at regular intervals on the top, give it a very impressive appearance.

The "Smoke-house" of the Cave is near this, in which numbers of rocks about the size and shape of hams of bacon are hanging, and which bear a strong resemblance to those of a Kentucky smoke house.

We then crossed "Lake Lethe" in a small boat, large enough to contain about ten persons. The water was clear and blue, and the music sounded finely, as we glided over its smooth surface. This lake appeared to be several hundred yards in length, though the dimensions are not remembered. Nothing of interest is then seen until you come to "Echo River," a stream some fifty feet or more in width, and which extends down the Cave about three-fourths of a mile. The depth is in some places 15 feet. We entered a small boat and floated down this beautiful river to the delightful music of "Sweet Home," whilst the strains of "Ivy and Woodbine" were echoed and re-echoed through the vast labyrinth of this greatest of nature's wonders.

The tones of the Tuba, resembled those of some monster organ, whilst a whole strain of harmony could be distinctly heard at the conclusion of every piece. In this river, fish without eyes are obtained by means of a dipnet.

After crossing the river, we come to "Washington's Hall," which is an object worthy of examination, though not remarkable as an object of curiosity. It presents an imposing appearance when illuminated.

The "Snow Ball room," is wide, but not very high. The surface of the ceiling is black, with white formation resembling snow-balls. These snow-balls scattered over the ceiling present a grand appearance, and are among the greatest attractions of the Cave.

Martha's Vineyard, not far from this is a magnificent sight. In size it is larger than Washington's Hall. The height is considerably greater. The whole surface of the side walls and ceiling appear to be covered with grapes about the size of the ordinary blue grape, and in color slightly resembling them at a distance. There are crevices in the rocks, shaped similar to the vines, and the whole thing is a fine representation of a vineyard.

Another chamber near this, called "Virginia's festoon," is one of the most beautiful sights in the Cave. A solid white formation on the ceiling and sides, is covered with imitations of the choicest flowers, and when illuminated is truly imposing. The formation of these flowers is so accurate that the representation of the leaves are distinct and perfect. Stillman's Avenue is a long, tedious route over rocks and through narrow portions of the Cave, possessing no interest whatever.

"Ole Bull's Concert Hall"--in which that famous violinist, is said to have given a performance, is a very suitable place for entertainments of that description. It is in the form of an amphitheater, and would hold four or five hundred persons. A cabinet of curiosities is the next object of interest; which is about 8 miles from the mouth. Here most persons procure specimens--as there is a greater variety than in any other portion of the Cave. The objects of great curiosity, fear no danger--return by the same route to the open air from whence you came, &c.

The long route can be made in 7 hours--though it usually consumes the whole day. You partake of dinner in the Cave provided by the Guide.

It is a pleasant trip, and will amply amuse any person who may visit this wonderful subterranean curiosity.

As for one grand view, there is nothing in the Cave to equal the magnificence of Niagara; but as the objects of wonder are so much more numerous and varied in interest, it will compare favorably with the falls.

The hand of the Almighty is seen in all its wonders--and you are deeply impressed with the idea that he has intended the curiosities of the Cave as a miniature representation of creation.

W. J. LANDRAM,  
LANCASTER, KY., Sept. 17, 1855.

SWEARING--The absurdity and utter folly of swearing is admirably set forth in the following anecdote of Buzabab and his imps. The latter went out in the morning, each to command his set of men--one the murderers, another the liars, and another the swearers; &c. At evening they stopped at the mouth of a cave. The question arose among them who commanded the meanest set of men. The subject was debated at length, but without coming to a decision. Finally, his Satanic Majesty was called upon to decide the matter in dispute. Whereupon, he said: "The murderer got something for killing, the thief for stealing, and the liar for lying, but the swearer was the meanest of all, he served without pay." They were his majesty's best subjects; for while they were careless, their name was legion, and presented the largest division in his (Satan's) employ.

ONE OF THE PACE--The Lynn News is responsible for the following:

A friend of ours was arguing in favor of buying large pigs in the spring, declaring it much better than to buy small ones as they would eat but little more. A neighbor differed from him in opinion, whereupon he told a story which 'took down' his opponent, and all hearers decided that small pigs eat some. Said he: "Last spring I bought a little pig from a drover, and he was good for eating, but wouldn't grow much. He got to after a week or two, that he would eat a bucket full of more, and then, like Oliver Twist, call for 'more.' Well, one morning I carried out a water bucket full of dough, and after he had swallowed it all, I picked up the pig and put him in the same bucket I had fed him from, and the little cuss didn't fill it half up!"

COST OF KEEPING UP A FASHIONABLE CHURCH--One hundred dollars a Sunday is about the expense of a fashionable church in Boston, we learn from a recent paragraph in the Boston Transcript. In New York the expense is not very far from five times that sum. We will figure up the expenditures of one church in this city, the affairs of which we happen to be somewhat acquainted with.

The church, parsonage, library, etc., cost, in round numbers, \$300,000; the annual interest of which sum, at seven per cent., is \$14,000.

The pastor's salary is \$4,000, that of his assistant is \$500.

The presents annually given to the pastor we believe, do not average less than \$500; presents to his assistant, say, five dollars.

The singing, with the salary of the organist, repairs of the organ, and wages of the blower, costs very nearly \$1,600 a year.

The cost of cleaning, including the salary of the sexton, will average about \$900 a year.

The annual depreciation in value of the building and its contents, by use and time, may be computed at \$1,000.

The cost, therefore, of maintaining the church for one year is \$29,500, which is equal to \$439.78 per Sunday.

Forty smart mechanics, working steadily all the year earn about as much as it costs to support this church.

For \$29,500 a year, two thousand children could be kept under instruction in good schools. It would maintain a college of five hundred students in the highest efficiency.

It would support twenty-two country churches, or eight city churches in a liberal manner.

However, we must add, that there are not more than ten churches in the city conducted upon anything like the scale of the one to which we refer; though there are three which probably exceed it--N. Y. Life Illustrated.

STEERING BY THE NORTH STAR--A year or two since, an ebony individual, answering to the name of "Bob," (in fact, no one knew whether he had any other name,) was employed by a shipper, to assist him in sailing a small schooner on the waters of Chesapeake Bay. Bob didn't understand, and couldn't be made to learn him to manage the craft, except during a very light night, when he could point out to him some headland to steer for. On one occasion, however, the captain who had been up two nights previously, concluded he would trust the schooner to Bob, and take a little nap on the deck; so he pointed out the North Star to his companion, and told him to continue steering for it until he reached a point. After watching him a short time, and finding that he could keep the vessel headed right, the captain stretched himself upon the deck, and was soon asleep. Shortly afterward a squall arose from the North, and blew the craft completely away from her course. After it had cleared away somewhat, Bob looked around and found the North Star at his back. He sailed along an hour or so, doing the best he could, and expiating over how he should get out of his difficulty. But at last he gave it up, and shoving his slumbering master into wakefulness with his foot, shouted, "Cap'n! Cap'n! give me another star to steer by; I've got clean by that one."--California Pioneer.

STELLING WORSE THAN ONE WAY--Several years ago, "when the country was new," Hon. Nyrum Reynolds, of Wyoming county, was called upon to represent a successful petitioner. He wasn't very well posted up either in book latin or the learning of the law; but relied principally upon his own native tact and shrewdness--his stock of which has not failed him to this day. His great success created quite an active demand for his services. On one occasion he was called upon to appear in a case where the law of the land of a neighboring village, who made considerable sport of a paper which Reynolds had submitted to the court, remarking among other things, that "all law papers were required to be written in the English language, and that the one under consideration, from its bad spelling and penmanship, ought in fairness to be excluded."

"Gentlemen of the Jury," said Reynolds, when he "summed up"--and every word weighed a pound--"the learned council on the other side finds fault with my title and spelling; as though the merits of this case depended upon such matters. I'm again logging in any such outside of facts, but I will say, that a man need be a fool who can't spell a word more than one way." The jury sympathized with Judge R., and rendered a decision in favor of his client.--Olean Journal.

NOVEL SENTENCE--A sentence recently passed in Switzerland, upon a man found guilty of sacrilege, shows considerable ingenuity in the art of punishing. The criminal is to be exposed for a quarter of an hour in the iron collar used at executions, to receive publicly sixty strokes of the rod from the hand of the same dread officer; five years of hard labor; to remain ten years within the boundary of his native commune; never to be able to marry; and to lose all civil and political rights; to pass through certain religious exercises; and, finally, to confess his crime in the church, a rod in his hand and a cord round his neck.

THE SIZE OF MAX--A ridiculous statement has run through the papers of Adams' being 123 feet high, Eve 118, Noah 103, &c. The Egyptian mummies, if they are good for nothing else, prove the interesting fact that three or four thousand years past man has not changed in stature. If, therefore, no diminution of it has taken place in the course of all that time, but the average size of the race is the same now as three or four thousand years ago, is there the least probability that it was materially different in the two thousand years preceding? The argument is strong that it was not.--Newark Daily Advertiser.

REVENGE is a common passion; it is the sin of the uneducated. The savage does it; noble; but Christ's religion, which is the sublime civilization, emphatically condemns it. Why? Because religion or seeks to ennoble man, and nothing so debases him as revenge.

## A Very Desirable FARM FOR SALE!

THE subscriber offers for sale the FARM on which he now lives,

Containing near 300 Acres.

It lies immediately on an excellent turnpike about 3 miles from Danville, in the direction of Hustonville. This place is celebrated for its remarkably fine and permanent springs, rising in almost every enclosure on the place. The water is unsurpassed by any in the world. The weakest spring on the place, during the driest period of the excessive drought of last year, furnished water enough to supply a city. The productive qualities of this Farm will bear comparison with any in the State. Year before last

New York, Sept. 20.  
The steamship Baltic, from Liverpool, with a crew of 100, arrived at New York at 9 o'clock on the evening of Sept. 1, and left Liverpool at 9 o'clock on the morning of Sept. 8. The papers received by the Baltic are extraordinarily destitute of news; in fact they do not contain a single incident worth reporting.

General Simpson and Polissier telegraph on the 21 that there is nothing now respecting the siege of Sevastopol. The Russians are again threatening an attack on the Tchernaya, and hence the allied army is kept constantly on the alert, and both parties remain constantly under arms. The question is whether the Russians will attack the Tchernaya, or whether they will attack the Black or Baltic sea.

The Turkish Bulletin says the Russians have not the means to attack Kars, and that in a recent partial attack the Russians suffered considerable loss. There is no reliable information respecting the negotiations, but it is reported that the German Powers are preparing a new programme to confine the war to its ostensible object.

It is rumored that England instigated by France, is about to take measures of hostility against Naples. The latest report is that the German Powers are preparing a new programme to confine the war to its ostensible object.

The Bank of England has advanced its rates to four per cent. From Great Britain there is not a word of political news of interest, if we except the apparent rumor that Great Britain intends to call Naples to account, and will make the recent insult of the Neapolitan police to an attaché of the British embassy the ground work of a quarrel. The news of the death of the Hon. Abbott Lawrence was received on the 7th. The American ships in the port of Liverpool displayed their flags at half mast as a mark of respect to the deceased.

The harvest throughout Austria is about an average—neither positively good nor the reverse.

Great Battle with the Indians.  
Eighty to one Hundred Killed—Indians Completely Rout—All the Camps, Garrisons and Fortifications Destroyed—American Loss Very Heavy.

St. Louis, Sept. 24.  
Gen. Harney has signified his advance into the Sioux country by one of the most brilliant and complete victories ever achieved over an Indian enemy. The victory is so thorough as to strike terror into the whole of the savage tribes occupying that section of country. The battle took place on the 3d inst., at Sand Hills, on the north bank of the Missouri river. Two entire forces of the United States troops who participated in the engagement was not over 450 men.

Major Candy was in command of five companies of the Sixth Infantry. Colonel Cook of two companies of Second dragoons, one company of infantry one of artillery, the whole under the command of Gen. Harney. The battle commenced early in the morning and continued several hours. Gen. Harney ordered Col. Cook to command to place themselves some distance in advance of the infantry, so as to come down with full force upon the enemy.

These orders were successfully accomplished, and about 3 o'clock in the morning the engagement was commenced by an attack on the part of the infantry, which drove the Indians in the direction of Col. Cook's command, which being ready and eager for the fray, commenced a desperate attack and soon routed them. A running fight followed for some ten miles. At a point of rocks a portion of the Indians are said to have made a stand and to have fought with great desperation, but they were soon completely routed, having seventy or eighty men killed and fifty women and children taken prisoners. They suffered also the loss of all their camp plunder, a large amount of dried buffalo meat, their lodges and fifty horses. The Indian women it is said fought furiously.

On the part of Gen. Harney's force five or six were killed and as many wounded. No officers are reported among the killed.

The Indians concerned in this battle were the Brule Sioux of the Plateau, the same who some time since massacred Lieut. Grattan's command near Fort Laramie, and who have frequently defied the United States troops to meet them in battle. Our letters speak of the battle as being a very gallant and well conducted affair. The war is not expected to end with this battle, and we look for more details and stirring news daily.—Bulletin.

Baltimore, Sept. 25.—New Orleans papers of Wednesday have been received; they contain details of a great storm on the lake coast, which caused great damage. Several vessels were wrecked, houses prostrated, and many lives lost. Two negroes were killed at Mississippi City by falling of a house, one was a son of Gen. W. T. Sherman, the other was Mr. Jos. Province. They were merchants from New Orleans. The storm was more severe than any experienced since the year 1823.

The English government puts an enormous duty on all tobacco imported, and allows none to be taxed in the island. This is not from anti-tobacco principles, but to increase the revenue. A ship, the "Edmund," two ships cleared at New York, for Liverpool, and a number of others with two thousand boxes of tobacco, the value of this cargo here is \$32,000, but the duty the English government will charge on it is \$100,000, an enormous sum, when

A Catholic Boy Mad.—We have rarely seen a more extraordinary exhibition of impudence than is contained in the following from a Catholic, who, having been offended at something which appeared in the New York Times, sent the editor a letter, in which he threatens thus:—

"Will you allow me to inquire if you cannot find enough to fill your newspaper with, in abusing that great and good man the patriotic Pierce—in glorifying in his defeat, and in such like damnable hell-bores, in covering with your slime the most ancient, the most populous, the most holy, and the truest church that exists, or ever did or can exist on the face of God's earth? Has this once glorious Republic become indeed so bestial, so damnable depraved, and so blasphemously and outrageously degenerated, that one's holy religion must be held up to ridicule for the purpose of catering to its appetite? Now, sir, be warned in time—there is a point beyond which patience ceases to be a virtue. Beware of the fate of the Philistines. Remember Simpson, how in order to avenge him of his enemies he destroyed their temples and buried them in ruins. The sword of Damocles is suspended over this Republic, and as sure as there is a God in Heaven, if these sneers against his Holy Viceroy and the Church's holy institutions are persisted in much longer, his people will become aroused, the thread that holds that dreadful sword will be severed, and then we will woe to your boasted greatness, and like every other Republic that ever cursed the world, the historian will hold you up to the scorn and contempt, and ridicule of mankind. Once more, I warn you to beware. We wish you personally no harm, but your paper, I am told, is somewhat extensively read, and perhaps, you exert an influence through it; therefore, I hope you will heed the warning of one who knows what he asserts. I write this hastily and with no view to have it printed, but if you are a gentleman, if you are a patriot, if you are a man, for God's sake be warned of the consequences before it is too late, and cease insulting high Heaven through those pure and holy men, to whom alone He has entrusted the keys that can ever open the gates of Paradise to the fallen sons of Adam. As for the pitiful wretch, Dick Pinto, who wrote you from Rome, no stronger argument could be urged to show the necessity of the purifying virtues of the Inquisition than is afforded by his damnable letter, and I trust in season his efficacy will be tried upon him before he escapes from the Holy city he now pollutes with his dirty presence."

Baltimore, Sept. 23.  
The steamship North Carolina arrived today. She brings intelligence from Norfolk up to noon Saturday. Nothing can be more appalling than the present aspect of affairs, and the weather has been so very unfavorable as to cause misgivings with regard to those who are sick.

Dr. Ferguson, President of the Howard Association, died Saturday morning. This fact adds greatly to the despondency of the people. Physicians say that the disease he had was of his malignity. There were 40 intubations on Tuesday, and 25 on Friday, and on Saturday, 30. Orders for coffins have been left with the undertakers.

Up to 10 o'clock, during Friday night, 10 deaths occurred.

Miss Wallace, from New York, is doing well at Portsmouth.

On Friday there were 25 deaths; on Thursday 22, and about 30 on Saturday. Drs. Wallace, of Baltimore, and Rysor, of Philadelphia, are very ill. Drs. Aspel and Kennedy, of Philadelphia, are convalescent. Mr. Reside, an apothecary of Philadelphia, is also down with the fever. The acting Mayor, Mr. Hulliday, was taken to the Hospital yesterday. It is estimated of 2,200 persons now in Portsmouth, 2,000 of them are either convalescent or sick. Acclimated nurses and physicians are much wanted, but the authorities hope no more will come from the North, who have not had the fever, to furnish fresh victims.

Execution of Thirty-five Hundred Chinese Rebels Near Canton.—Mr. Silas E. Butts, Jr., who has just returned after an absence of nearly two years, the greater portion of which he spent in China as an eye-witness to the execution of thirty-five hundred Chinese rebels, who were taken prisoners in the battle near Canton in the month of March last. The prisoners were taken to a low marshy island, and there each was compelled to undergo a form of trial before a tribunal of Mandarins, and each was sentenced to death by decapitation. One by one they were led forth to the execution ground, a large space covered with sawdust to the depth of several inches.

To give a greater degree of awful effect to the scene, an elevated platform was erected, consisting of a single narrow plank, over which the unhappy victim had to pass in full view of his fellow captives, whose terms of existence, whether of an hour or day, depended entirely upon the will of their captors. The prisoners manifested the most indignant difference to everything connected with the scene, apparently as unconscious of the terrible fate as dumb brutes going to the gallows. Arriving at the execution ground, the captives fell upon their knees, and bending forward awaited the single stroke of the executioner's sword that severed head and trunk—body and soul. There were no shrieks of terror, no supplications for pardon or mercy.

CONVERSION TO JUDAISM.—The Rochester Democrat states that an American Protestant lady of that city a few weeks since entered the pale of Judaism, and last Sunday she was married, according to the Jewish ritual, to a descendant of Abraham.

ON A STRIKE.—We learn from the Havreville Eagle, that the coal miners at the Beckinridge mines, near Cloverport, and at the Lewisport mines are on a strike for higher wages. Employers and employees at Havreville are doing a hand-to-hand business.

KENTUCKY INSTITUTION FOR THE EDUCATION OF THE BLIND.—The next session of this institution will commence on the first day of October, in the edifice recently erected for its accommodation. All persons intending to enter the school during the session are requested to be present at its commencement. Every candidate for admission must be of good mental capacity; must present a certificate from some respectable physician of freedom from all offensive and infectious disease; and must furnish satisfactory testimonials of unexceptionable moral character.

By a recent act of the Legislature, blind children, resident in Kentucky, are received without regard to their pecuniary circumstances, and educated at the expense of the State. They must furnish satisfactory evidence that they are inhabitants of the State of Kentucky.

The annual expenses of pupils from other States are one hundred and twenty dollars.

All the pupils must be neatly and comfortably clothed during their residence in the institution, and their travelling expenses to and from the institution must be paid by their friends.

For additional information respecting the institution address  
B. M. PATTEN,  
Louisville, Ky.

Editors in Kentucky will confer a favor on the blind in the State by giving the foregoing notice one or more insertions in their respective papers.

MURDER AT SEA.—The Clipper Ship Ariel, whose Captain was murdered at sea, arrived at Charleston, South Carolina, on the 3d inst., and from the Standard we gather some particulars.

The Ariel sailed from New York some time in July last, for Shanghai. The crew was composed in all of twenty-four men, seven of whom were apprentices, and did not therefore room with the men in the fore-cabin. The murder of Captain Ayres was discovered on the morning of the 17th of August, when he was found in his bed by the Steward, perfectly dead. His death was caused by sundry deadly wounds, which were apparently given with a hatchet. His throat was also cut.

Henry E. Girard, one of the apprentices, and aged about 17 years, was the first arrested, and his arrest was in consequence of testimony given against him by George Anderson, another apprentice, of about the same age. It is said that the accusations of these two young men mutually criminate each other, though the particulars of the accusations are not reported to us. They connect no other than themselves with the commission of the crime, though a bloody knife, the blade of which corresponded with the wounds in the Captain's breast, was found in the locker of another of the apprentices, who has not been arrested.

The young men were lodged in the Guard House to await the proper examination. There is no positive evidence of the guilt of the boys, and the Standard says they carry no appearance of guilt, and that they are either innocent of the crime with which they stand charged, or are hardened in villainy very much beyond their years. Girard belongs to Poughkeepsie, New York, and Anderson is from New York.

PREMIUMS IN THE WORLD'S FAIR TO AMERICA.—The Paris correspondent of the New York Tribune says that the following awards will probably be made to American articles on exhibition at the World's Fair. The prizes are not yet declared, but this is thought correct: The juries of the exhibition have about finished their labors, and the following awards are reported to have been made to Americans: To McCormick's reaper, a gold medal; to Manny & Atkin's reaper, silver medal; to Singer's sewing machine, the highest premium on sewing machines; to Raymond's boiler-iron cutting machine, a silver medal (less than it deserved); to Fowler & Preterre, dentists, a silver medal (the highest on dentistry); to Pitt's thrashing machine, a gold medal.

POWDER MILL EXPLOSION.—The Genesee powder mills, five miles east of Rochester, N. Y., exploded on the evening of the 12th. Four or five hundred kegs and four houses were destroyed, but no lives lost. The mills have exploded four times within the last eighteen months. The proprietors expected to close their mills within a few days, they being unable to procure saltpetre, not a sack of which article can be obtained in the eastern cities. The demand for Russia has caused it to advance in price one hundred and fifty per cent, in the last sixty days, and Russian agents in New York and Boston bought by sample all that will arrive this year from Calcutta.

It is said that there is but one powder making firm in the United States that has stock to run more than sixty days longer. They must close then or sooner, and await the result of the eastern war, or bid against the czar of all the Russias for that indispensable ingredient for powder, saltpetre.

HOOS.—We hear of no contracts. The views of sellers are above those of buyers. The Cincinnati Commercial of yesterday says:

For hogs there is not much doing; some sales have been made during the week, for November delivery, at \$6 30, but holders ask \$6 40, and there are buyers at \$6 25 to \$6 30, who show a strong disposition to operate at these rates. Contracts are being made through Indiana at \$6 50 for January delivery, and in the interior of Illinois at \$5, according to the papers published in the interior towns of those States.

HORRIBLE ATTEMPT AT MURDER.—The Rev. George Tucker, on Sunday week, with his son and daughter, were going to church in Clayton, Conn. In passing the house of a Captain Harvey, this man fired deliberately, first at Miss Tucker, and as Mr. Tucker turned to see the cause of the firing, he received the contents of a second barrel of a shot-gun in his face. It would appear that in turning round he fortunately escaped the bulk of the charge, which struck against the wall on the opposite side of the lane. Miss Tucker's escape amounts almost to a miracle, as the assassin must have fired point blank at her head. The charge entered the poll of her bonnet, making a hole about the size of an orange, carried away the comb in her hair, and lodged in the wall on the opposite side; not a shot touched her. Her eyes are entertained of Mr. Tucker's recovery. No cause whatever can be assigned for this horrible outrage. Harvey was arrested and committed for trial.

T. I. C. BRINLEY & CO.,  
Plow Manufacturers,  
SIMPSONVILLE, KENTUCKY.

WOULD respectfully call the attention of the Farmers to the fact, that my new plows are ready made over one hundred and twenty Improved Steel Plows for Sale.

It is well known that we have never been able heretofore to fill the demands for our Plows, in order to supply all we can. We are now putting an extra finish on our Plows to meet the great demand, and our Plows are now in the hands of the farmers, and are doing a good work, and are superior to the plows commonly used. All those who think they will want our Plows, we hope they will send in their orders early, that they may be accommodated. We sell exclusively run cash, and all orders sent will be promptly attended to. Our prices are as follows:

For No. 3, for three horses \$2 00  
No. 2, for two horses \$1 50  
No. 1, small Plow, 7 1/2 ft. 1 00  
For Double Shovel, 8 ft. 1 50  
Single Shovel, 7 ft. 3 00  
For Cultivator, 7 ft. 8 00

We would just say to the farmers, we have a new Patent Plow, which excels any thing of the kind ever invented in Kentucky. It is the first one ever invented in Kentucky of its kind. We would recommend it to all those who are in the business of farming. It is the best thing of the kind ever saw. Upon its judgment as well as our own, we recommend it.

FRIDAY, SEPTE. 28, 1855.

**THE MAMMOTH CAVE.**—Our readers will find on our first page, a well written and interesting description of the Mammoth Cave, for which we are indebted to the kindness of W. J. LAMM, Esq., of Lancaster. We hope friend Lamm will favor us with the productions of his ready pen whenever occasion may offer. We are proud to class him among our most valued correspondents.

**WE** were gratified during the recent conference to meet our old and valued friend, Rev. L. D. HERRON, at present editor of the Home Circle and Sabbath School Visitor. He is making an excellent editor, and the publications under his charge are rapidly attaining the circulation they so richly deserve.

**EDUCATION IN TOWN.**—Among the nobles in attendance at our fair, we have had the pleasure of meeting A. S. MITCHELL, Esq., of the St. Louis News and Intelligence, and R. H. JOHNSON, Esq., of the Richmond Messenger. Major Barker, the veteran tyro, formerly of the Somerset Democrat, passed through our town on Wednesday last.

**REVIVAL OF RELIGION.**—An interesting protracted meeting has been in progress for some weeks past, at the Fork Meeting House, in Garrettsburg. Rev. Messrs. KIRKLEY and SERRA, of the Baptist Church, have been in attendance, and have labored about 80 new members into that branch of the Church. The rite of baptism by immersion was conferred upon the newly converted persons on Tuesday last, in the presence of a large concourse of spectators.

**"THE GOOD TIME COMING."**—The printing fraternity are looking forward hopefully to the time when marriage notices will come in by dozens and scores, and each one be accompanied by a dollar. It is beginning to be fashionable to receive such already. We have in the past three weeks received no less than three marriage announcements, each of which added just a dollar to our stock of funds.

"Ten dollars to printer and priest,  
No sensible man can refuse;  
Nine dollars to render him best,  
And one to publish the news."

We wish it particularly understood, however, that we make no charge for inserting marriage notices. They are always published free. We mention the above facts, only to show that though the "good time coming" has not yet fully arrived, it may not be so far off as some might imagine.

**SOME MERRICKS.**—We acknowledge the receipt of an invitation to attend a promenade concert, to be given at the Concert Hall in Lancaster, by the young men of that town, on this evening, at 8 o'clock. We'd like to be there.

**LANCASTER'S SABBATH BAND, OF LANCASTER.**—This celebrated band is in attendance at our fair, enlivening the occasion with excellent music, adding, of course, very greatly to the enjoyment and satisfaction of the large crowds of spectators in attendance. Landrum's land is composed of as clever a set of fellows as ever trod a horn.

**EXTRAORDINARY SAVING.**—A communication in another column gives the particulars of an extraordinary—even wonderful—job of saving recently performed by the steam saw mill of Messrs. MOORE & LAMB, in Lincoln county. If any mill with one saw has ever done more work in the same length of time, we would like to hear of it.

**DANVILLE STEAM MILL.**—We have heretofore neglected to notice the improvements recently made in our town by Mr. D. CROZIER, late of Jessamine county. Mr. C. has converted the large, buildings on the old River yard site into a commodious and well-arranged Woolen Factory, where he is engaged in manufacturing janes and linsey of superior quality. He has also erected on the same lot a very large saw mill, combining all the late improvements to facilitate his milling operations. The entire arrangements of every department, are such as will enable Mr. C. to do a heavy business. His engine, which furnishes power to both the factory and mill, is of large size, and supplies sufficient force to run an immense amount of machinery. His corn and wheat mills are now both in operation, and he is prepared to grind all the grain which may be sent to him; and he is also prepared to fill orders for any quantity of fine or common flour, corn meal, &c.

Those who may deal with Mr. Crozier will find him an accommodating, punctual, honest man, who will do justice to all his patrons. It is needless for us to attempt an estimate of the benefits our town and the surrounding country will derive from his factory and mill. The want of such conveniences has long been a subject of complaint, and Mr. Crozier deserves the thanks of our people for his enterprise in furnishing them. We hope he will be liberally sustained.

An advertisement of his mill will be found in another column.

**TEMPERANCE ADVOCATE.**—We neglected last week to acknowledge the receipt of the initial number of the "Temperance Advocate," published at Frankfort, by A. G. HONORS & Co., and edited by L. HORN. The Advocate is the organ of the Grand Division of Kentucky, and is published under the supervision of a committee appointed by that body. The number before us exhibits neatness in mechanical execution, and ability in its editorial department. Mr. Horn is a forcible writer, a reliable man, and is devoted to the cause of Temperance. We do not but that the support and patronage of the friends of Temperance in our State. Terms \$1 per annum in advance.

**DEATH OF CAPT. GATZKE.**—We learn from Harrodsburg, Floughboy, that Capt. E. B. GATZKE, who formerly represented Adair county in the State Legislature, and who was a soldier in the Mexican war, died at the residence of his father-in-law, Mr. E. Hutchinson, in Mercer county, on Monday night week.

**FLOUR IS AGAIN ADVANCING.**—The constant demand for shipment to the East has given it an upward tendency.

**The Fair.**  
The Fourth Annual Fair of the Central Kentucky Association, commenced at the Fair ground in this vicinity on Tuesday last. Our town is of course thronged with people, and the dashing of countless vehicles to and from the fair grounds, lends to our streets an exceedingly animated appearance. The weather for the most part has thus far been very propitious, cool and seasonable. There is a large attendance of spectators, and the exhibition on the first two days we believe excelled any before held by this Association. Indeed, we heard several persons who attended the great Lexington Fair remark that the show on our fair grounds, the present year, has been much superior to that at Lexington. The exhibition of the handiwork of the ladies on the first day, was unusually extensive, embracing a large number of surpassingly beautiful and meritorious articles—the products of much patience, taste and ingenuity. What a pity that the heart of each fair exhibitor could not be gladdened by a premium! The display of fruits, flowers, vegetables, farming implements, saddlery, harness, leather, dry goods, &c., was also good. Such vegetables and fruits—who ever saw the like before?

The second day, Wednesday, was devoted, mainly, to the exhibition of horses. The whole display was interesting, the rings were large, and the premiums were in nearly every instance spiritedly competed for. A fine exhibition of these noble animals we do not believe was ever made in the State. They were in fine order, full of mettle and corn, and seemed, by their noble bearing, to have an idea of their importance, and a desire to show off to the best possible advantage. In one ring there were as high as 22 entries.

Yesterday was devoted to the exhibition of Cattle, Dogs, and Sheep, and to-day to Johns, Virginias, Mules and Saddle and Harness Horses, all of which we will have something to say in our next.

The list of premiums awarded on the first and second days will be found in another column.

**The Conference.**  
The Kentucky Conference of the M. E. Church South, adjourned on Tuesday afternoon last, after a pleasant and interesting session of one week. During the session of the Conference, our citizens had the opportunity of listening to sermons and addresses from a number of its most talented and distinguished members, as also from a number of visiting ministers attached to other Conferences—among the latter, Bishop Kavanaugh, Dr. Schenck, Father Holman, Dr. Stevenson, Prof. Baldwin and Dr. Hamilton. The deliberations of the Conference were characterized by good feeling, and the upmost desire of all seemed to be, that its proceedings should be such as would be best calculated to promote the great cause of religion and humanity in the world. Bishop Paine, the presiding officer, enjoys the highest respect and esteem of the members, and very deservedly so, for we have rarely if ever seen the chairman of any deliberative assembly, more dignified, firm and impartial, and at the same time mild and kindly-spoken than he is. His next appointment is at the annual session of the Louisville Conference, which commences in Greenville, Ky., on Wednesday next.

We publish in another column, a list of the appointments of preachers for the ensuing Conference year. It will be seen that the Rev. Mr. STEVENSON, who for two years past, has labored among us as the pastor of the Methodist Church in this place, goes to Newport, Ky., and is succeeded here by the Rev. Dr. LINS. We commend Mr. Stevenson to the members of his charge and the citizens of Newport generally. We have been intimately associated with him during his stay in our midst, and have ever found him to be a high-toned Christian gentleman, a faithful pastor and a ripe scholar—constant and kind in his intercourse with his flock—firm and independent in the discharge of all his duties. Dr. Lins, his successor, is too well known by most of our citizens to need any commendation at our hands. He was stationed in this place thirteen years ago, and returns to us distinguished as an eloquent and powerful preacher. Thoroughly imbued with the spirit of his work, he labors without doubt to be highly acceptable to those immediately under his charge, while his eloquence in the pulpit, and his sociability and agreeable manners, will render him estimable to all our people.

The following resolution was passed by a unanimous vote of the Conference, and its publication requested in our paper:

Resolved, That we hereby tender our thanks to the citizens of Danville and vicinity, for their kind hospitality in entertaining this Conference, and to the pastors of the Baptist, 1st and 2d Presbyterian, and Reform Churches, for the use of their houses of worship during our session.

**The Louisville Times and Democrat.** after as long a time, have at last mustered and drummed up a lot of certificates concerning the election riots in that city. These certificates are amusing, if nothing else. They give long accounts of individual fights, encounters, and such like, but the notorious facts that inefficient Americans were fired upon and killed, that Quinn's Row was a perfect fort, filled with reckless foreigners, who fired indiscriminately upon every American within their range, they cannot smooth over. The Journal of next week will contain additional testimony in regard to the facts in the case.

**New States.**—There are four territories whose population will probably, within a year, entitle them to states. The ratio of Congressional apportionment is now one Representative to every 33,420 inhabitants. But it has been customary heretofore to admit territories as states with a single Representative when their population amounted to 60,000. Minnesota, it appears by her recent census, has a population of over 55,000, and is rapidly growing. Oregon, last year had 48,000, and probably now equals Minnesota. New Mexico had, at the time of the formation of her territorial government, (in 1850,) 61,500 inhabitants. They then framed a constitution—Her population now must be near 100,000—Kansas falls behind either of the others in population.

**The Garden Purchase.**—Another California, perhaps. The New York Times learns from Harrodsburg, Floughboy, that Capt. E. B. GATZKE, who formerly represented Adair county in the State Legislature, and who was a soldier in the Mexican war, died at the residence of his father-in-law, Mr. E. Hutchinson, in Mercer county, on Monday night week.

**THE NEXT SPEAKER.**—The Washington correspondent of the New York Times discloses as follows on the Speakership: The canvass for Speakership of the House has commenced with great animation. The Republican factionists have perhaps, a greater number of members than any other party or faction. Their candidate is not yet settled upon. It may be Mace, of Indiana, formerly a Democrat; L. D. Campbell, of Ohio, Free-Soil Whig; Banks, of Mass., late a Free-Soil Democrat, or Giddings, Independent. The Democrats have numerous competitors. There are Richardson, of Illinois; Orr, of S. C.; Howell Cobb, of Georgia, if elected by the people; Thomas H. Bayley, and other Virginians. There are not more than a dozen Whigs proper in the House. They will hardly run a separate candidate. The preferences of the Know-Nothing are divided between Havens, of New York, late Whig, and perhaps the most prominent representative of the order; Humphrey Marshall, late Fillmore and Silver Grey Whig; Extra Billy Smith, of Virginia, late fine-casting Democrat; Judge William W. Smith, of Alabama, late Democrat; and Banks, of Massachusetts, named above. Of these last five, I consider the chances of Havens and Marshall to be nearly balanced, and practically to absorb those of all the others of the Know-Nothing platform. The Southern Know-Nothing Whigs will ardently support Hon. Theodore Tilton, of New Orleans, if he shall be elected, which is yet too doubtful to be confidently speculated upon.

"Of the Democrats, Richardson would be far above all competitors, but for his too complete identification with the Nebraska scheme. In addition to other candidates on this side I should mention Caldwell, of Philadelphia, who is said to be very popular among the members of the party. He was in Congress many years ago, and served with reputation."

**THE WAR IN THE CRIMEA** is already two years old. On the 26th of June, 1853, the Emperor of Russia ordered his troops to occupy the Principalities, and on the 27th of September the Porte declared War against Russia, and invited the English and French fleet to Constantinople.

**VERY ANNOYING TO THEM.**—Some of the Sag Night papers are, in high disgust, because the steamer Rainbow carries the stars and stripes floating from her flag-staff—they think it a sign that she is a Know-Nothing boat. We don't wonder at their tenderness concerning the National colors. Their coalition with the enemies of Republican institutions, foreign papists and infidels, in their crusade against Americanism, should make them ashamed to look on the glorious stars and stripes of our country.

**WE** are indebted to Mr. T. B. PETERSON, of Philadelphia, publisher, for a copy of "The Schoolboy; and other Stories by the Christmas Fire," by CHARLES DICKENS. They are said to be among the best of Dickens' writings. Price 12½ cents.

**GODEY'S LADY'S BOOK** for October, has been received. This number, like all its predecessors, contains 100 pages of interesting and instructive reading matter, together with 58 engravings and 64 cuts. The historical illustration of "Cromwell's last interview with his favorite daughter," the colored fashions, and the pattern plates, cannot be excelled. Godey has already commenced his 51st volume, making his periodical the oldest publication of the kind in the Union, ever increasing in interest and attraction, never failing to gladden the hearts of its patrons as number after number are received and filed away for binding. It is astonishing to us that every lady in the land does not give Godey their aid and support, when they compare the subscription price to the benefit derived from its monthly receipt. Any lady might, in an hour, while among her friends, raise a club of five subscribers, at \$2 each, and get a copy for herself gratis, which will adequately recompense her for her time so spent.

**"YOUNG ITALY."**—The Bardonia American says a new county is proposed, to be called by the above name, and to be formed out of parts of Nelson and Marion. The districts designated by the advocates of the new county, contain about 1,100 voters, about 950 of them Roman Catholic, and the remaining 150 Protestant. A very appropriate name for such a county, is the one they have chosen.

**THE HAVANS** correspondent of the National Intelligencer writes that Santa Anna has, besides his possessions in Venezuela and the United States, \$2,000,000 with him; in the Bank of England and other places of deposit, an equal or larger sum; and in the United States several hundred thousand dollars, making an estimate of his property, all told out of Mexico, \$7,000,000.

**ENGLISH PAPERS** express the opinion, founded on careful examination, that Great Britain will only require an importation of 30,000,000 bushels of wheat to supply every possible deficiency. Three or four Western States could furnish the whole amount from their surplus stock.

**Twenty thousand cattle** from Texas and Mexico.—On a recent visit to Laredo, we were informed (says the Chicago Press) that a gentleman resident there, named McCoy, formerly of Kenosha, with three or four other persons in that neighborhood, is concerned in driving cattle from Texas and Mexico, and that they now have twenty thousand on the way, which will probably arrive within the next two or three weeks.

**POPULARITY OF THE ADMINISTRATION.**—The Hon. Jno. M. Niles, of Connecticut, a distinguished Democrat, and Mr. Van Buren's Post Master General, has recently made an extensive tour West, and in a letter to the Hartford Courant, furnishes the following evidence of the popularity of Pierce's Administration, as developed in his travels:

"Gen. Pierce's Administration must be sunk very low with the whole people when on a tour like this, thousands of miles, embracing ten States and one Territory, and conversing with all sorts of persons and hearing conversation among others, we in no instance witnessed the defence of the administration by a single individual. We saw and conversed with several persons, some gentlemen of distinction, whose position is such that they may be regarded as giving their support to the Administration; but they do not defend it—and one, a distinguished editor in Ohio, seemed to admit that this Administration was the heaviest burden his party had to sustain."

**For the Kentucky Tribune.**  
An Exhibition of Sawing.  
A trial sawing of the steam circular saw mill of Messrs. MOORE & LAMB, came off on the 23d inst. One saw, in 7 hours and 13 minutes, saved 9,728 feet of lumber, 7½, 1 and 1½ inches thick. The logs were from 10 to 12 feet long; only 3 of them being over 12 feet; they were 27 in number, and some of them would not square over 12 inches.

**THE NEXT SPEAKER.**—The Washington correspondent of the New York Times discloses as follows on the Speakership: The canvass for Speakership of the House has commenced with great animation. The Republican factionists have perhaps, a greater number of members than any other party or faction. Their candidate is not yet settled upon. It may be Mace, of Indiana, formerly a Democrat; L. D. He was in Congress many years ago, and served with reputation."

**THE YELLOW FEVER AT NORFOLK AND PORTSMOUTH.**—The news from these afflicted cities continue to be of the most gloomy character. Last week, it was hoped for a day or two that the epidemic was abating—but the hope was vain—and our last advices are as a foreboding as ever. On Saturday 33 deaths occurred at Norfolk, and 17 at Portsmouth, and on Sunday 31 at the former, and 17 at the latter place. Five physicians died on Saturday. This mortality in places comparatively deserted, is appalling. It is said that a heavy frost in that latitude cannot be looked for reasonably for two or three weeks yet, and until then no abatement in the malignity of the epidemic can be expected.

**IT** is said that during the past year 2,700 new buildings were erected in Chicago.

**Engagements for hogs** are being readily made in Terre Haute, Ia., at \$5 net.

**Forty-one steamboats** were destroyed by snags on the Western rivers in the last six months.

**IT** is stated in a Boston paper that there are at present three thousand seven hundred Americans in Paris.

**The Synod of Kentucky Presbyterians** meets at the 1st Church in Covington, October 10th.

**The pork-packers of Bowlinggreen** and Clarksville are making engagements for hogs at \$4 gross.

**It** has been ascertained that the best way to keep fruit and preserves from spoiling is to let the children have free access to them. Sure not to fail.

**In the neighborhood of Albany, N. Y.** the potatoes are so large that (the Knickerbocker says,) the dealers paint them green and sell them for watermelons.

**Kossuth** has been prophesying again, he says that if Russia triumphs in the present war, her next step will be to lead all Europe to a crusade against American republicanism. Let her come.

**For the Kentucky Tribune.**  
**That Flag!**  
The Democratic flag which was taken from the County Clerk's office, last week was found on Tuesday morning, on the Fair Grounds. Those who abstracted the banner, no doubt, thought and still think, they have done something smart and harmless. As one who deeply sympathizes with the American movement, and believes it to be, from his heart, the cause of the country and of God, I say to those who did this act, few in number, as I have no doubt, that they committed an outrage upon the rights and feelings of our Democratic brethren—one calculated to bring reproach upon the American cause, and, in itself, a mean and dishonorable thing. AN AMERICAN OUT AND OUT.

**Danville Prices Current.**  
Corrected weekly by J. C. HEWLEY, Wholesale and Retail Grocer and Confectioner.  
REMARKS.—Business during the week has been very brisk. The streets of our city have been filled with strangers. Money is more easily come at than usual, in fact the money market is quite easy in a small way.  
Provisions abundant, with the exception of Bacon, which is in much demand with none in market. Receipts of Groceries light, with small stocks on hand—prices rule high.  
The weather during the past week has been very fine, with light refreshing showers.  
COAL AND WOOD.—Coal with 25c per bushel. Wood \$2.25 to \$2.50 per cord.  
DRY GOODS.—Good stocks on hand at prices to suit the times.  
FLOUR, GRAIN, &c.—We quote flour from \$2.50 to \$2.75 per 100 lbs. Corn Meal from 60 to 75 per bushel. Wheat selling from 60 to 75. Old corn delivered \$2.50 per bu.  
FRUITS, &c.—Supply abundant. Apples from 20 to 30c per bushel. Peaches No. 1 at 40c. Potatoes 25 to 35c. Sweet potatoes 75c to 1.00.  
GROCERIES.—We quote as follows, with very light stocks.—Sugar 10½ to 11c, by the lb. Rice 12½ to 13c, Java Coffee 15 to 20c. N. O. Molasses by bl 25c. Sugar 25 to 26c. Pressed tallow 16c. Salt 75 to \$1.00 per bushel.  
PROVISIONS AND POULTRY.—Bacon has 12½c none in market; clear side 12½c. Lard 12½c; Butter 12½c; Eggs 8 to 10c. Chickens per lb. \$1.50 to \$2. Ducks per lb. 25c.

**SELECT SCHOOL FOR BOYS.**  
THE undersigned has been appointed a School for Boys, in Danville, on the First Monday of October, in a room in the second story of Mr. Henderson's building.  
The number of pupils will not vary much from twenty, which will enable him to give a large share of personal attention to each scholar.  
The school room will be fitted up in a neat and comfortable style; and care will be taken for the morals, manners and comfort of the pupils, as well as his progress in study.

**Great Gift Enterprise.**  
A MAGNIFICENT PREMIUM—ATTENTION! FARMERS!—In order to encourage the agricultural interest of Boyle county, and, at the same time, put meat upon the shelves of "old Mike," we offer for a *Can of Fresh Oysters* to the person delivering at our office, before the 25th day of December next, the ten finest ears of corn. The premium will be awarded during the Christmas Holidays. The names of the competitors, with a description of the corn will be published at the time the premium is given.

**WE** invite the attention of our readers to the advertisement of Mr. JAS. M. GRAY, Druggist, &c., of Perryville. He has a fine and well assorted stock, and being a prompt, reliable young gentleman, will of course do the right thing by his customers.

We take occasion to recommend the Tribune to the business men of Perryville as a medium through which they can advertise. "Plant here your dimes—reap thence your dollars."

**FRESH OYSTERS—FIRST OF THE SEASON.**—Our friend HEWLEY is already receiving the most delicious fresh Oysters—fat and fine, which he is prepared to serve up in the best style, in quantities to suit the wishes of customers.  
His fall stock of Groceries, Nick Nacks, and Etceteras, will be found very extensive and varied—quality A, No. 1, and prices fair. See advertisement.

## STEAM MILL FOR SALE

HAVING determined to go west, I will, if not sold privately before the 15th of November, sell to the highest bidder, on that day, my

## STEAM MILL AND LOT.

Containing 4 Acres of Land.

On the said lot there is a good sized house, kitchen, and a comfortable and convenient 3-story mill, and is situated in a desirable location at the junction of the Richmond, Danville and Kentucky Turnpike, which are now being made, and in the heart of the best wheat and corn growing portion of Kentucky. The mill is of brick, 70 by 30 feet square, with two runners of stone, the corn mill will grind 20 bushels per hour, and the wheat mill 15 bbls of flour per day; the saw mill will cut from 2 to 3000 feet per day, the machinery is nearly entirely new, and in good running order, wood plenty and cheap; and takes but little to run it. Any purchaser wishing to see the books, I will be pleased to wait on them, an examination of which will show that the property has more than paid for itself each year since I have owned it.

TERMS OF SALE—One half to be paid the first of January, when I will give possession; the remainder in 12 months, with interest from date, payable in equal installments with approved security. I also have a fine lot, known as the "Woman and Three Children," that I will sell on the same day, if not disposed of sooner; and I can recommend her as a good and valuable servant and a slave for life. Sale to commence at 10 o'clock.

## FALL TRADE!

## HATS, CAPS, & FUR GOODS.

POLLARD, PRATHER, & SMITH, 455, MAIN STREET, LOUISVILLE, KENTUCKY.

WE have made large additions to our stock of hats, caps, and fur goods, and can supply our friends with a better article of goods in our line than ever before, of our own manufacture, and much superior in style and quality to goods bought of jobbers in the Eastern cities.

Our Fall Style Dress Hats will be far superior to and of a more elegant style than any other stock of Soft Hats, embracing every color, quality and style, is very large, and will be sold at greatly reduced prices.

Men's and Boys' Wool Hats—We have the largest stock to be found in any house in the Union.

We are determined to sell our goods to cash customers and prompt-time men cheaper than they can be had of any other house, and by an examination of our stock all will be convinced.

Our stock of goods for the Fall Trade has been gotten up under the supervision of the most experienced and practiced manufacturers in the country. We obligingly counsel to sell every article in our line at Eastern prices, and guarantee the style and quality to be better.

## HOTELS.

## CENTRAL HOUSE.

THE undersigned, late proprietor of the "Danville House," has taken for a term of years, that large and commodious public house, so long known in all the South and West, as the "CENTRAL HOUSE," and having refitted and furnished the same, is now prepared to accommodate all, whether local or transient, persons who may favor him with a call. His long experience in the business of Hotel keeping, and his earnest desire to please all his guests, will, he hopes, justify him in saying, that at the "Central House" every thing may be found to render his guests comfortable and happy. Thankful to his old friends, they need not to be assured that the same kindly welcome, given to
